ABOUT THE INSTITUTION OF ENGINEERS (INDIA)

The Institute of Engineers (India) is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform from which to share professional interest. IEI has a membership strength of over 0.8 million. Established in 1920 with its headquarters at 8, Gokhale Road, Kolkata - 700 020, IEI has served the engineering fraternity for over nine decades. In this period of time it has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from more than 123 Centres located across the country. IEI provides grant-in-aid to its members to conduct research and development on engineering subjects.

IEI conducts Section A & B Examinations in different Engineering disciplines, the successful completion of which is recognized as equivalent to Degree in appropriate field of Engineering of recognized Universities of India by the Ministry of Human Resources Development, Government of India. Every year as many as 80000 candidates appear for these exams. For details, please see www.ieindia.org.

ABOUT THE INSTITUTION

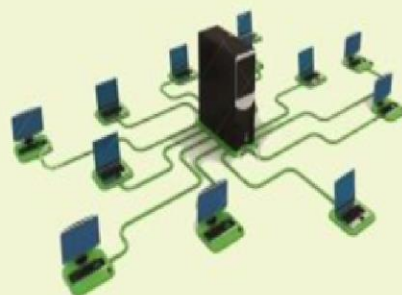

The Kavery Engineering College, founded by the philanthropic minded members of The Kavery Educational Trust started in the year 2006. It offers Five Under Graduate programmes, Eight Post Graduate programmes in Engineering, two Post Graduate programmes Master of Computer Applications and Master of Business Administration. The Courses are approved by AICTE, New Delhi and Affiliated to Anna University. The Institution is known for academic discipline and standards. It is one of the best running Institutions in Tamil Nadu.

ABOUT THE CSE DEPARTMENT

This department was established during the Academic year 2006. The Department has excellent infrastructure available for use by the students. It is the endeavor of the management to periodically migrate to the latest software and hardware to keep pace with the ever changing needs of the industry, so that our students come out with knowledge of latest technology in both software and hardware.

The department is resource centre for National Cyber Safety & Security Standards (NCSSSS), an autonomous body governed by National Advisory Board of Security.

The department has a permanent tieup with Infosys Ltd., an Indian Multinational Corporation by the name of Infosys Campus Connect under Institution Industry Collaboration scheme.

ABOUT THE SEMINAR

A software development methodology is a set approach used by programmes to develop a particular software or application. It is made up by different stages to achieve a complete solution. This seminar helps the students to learn the programming concepts, methods of software development, new techniques of software industry, various software testing methodologies and the current trend of software industries.

There are Several Different approaches to software development. Some take a more structured, engineering based approach to software develop business solutions. Where as others may take a incremental approach. Where software evolves as it is developed piece by piece. A software development project may stray into less technical concerns such as human resources, Risk management, intellectual property, budgeting, crisis management. These processes may also cause the role of business development to overlap with software development.
